PROFESSIONAL SUMMARY

Full-stack developer and 2025 Computer Science graduate (CGPA 8.7/10) skilled in Java, Spring (Core, MVC, ORM), Spring Boot, MySQL, and React/JavaScript. Hands-on experience building and deploying end-to-end web applications, including a generative-AI voice chatbot and a full-stack food ordering platform. Strong fundamentals in OOP, data structures, dependency injection, and MVC architecture, with a fast-learning, detail-oriented approach to delivering clean, working code.

SKILLS

Frontend: HTML, CSS, JavaScript

Backend: Java, Spring Boot, Spring MVC, Spring ORM, Spring Core (IoC & Dependency Injection), Servlets, JSP, Java EE

Core Concepts: OOP, Data Structures, MVC Architecture, REST APIs, Annotation-based Configuration

Database & ORM: MySQL, JDBC, Spring ORM

Tools & Version Control: Git, GitHub, Apache Tomcat, Eclipse IDE

Additional: Debugging, Problem Solving, Teamwork, Time Management, Continuous Learning

EDUCATION

B.Tech, Computer Science and Engineering — N.B.K.R. Institute of Science and Technology (*Graduated 2025*)
CGPA: 8.7/10

Senior Secondary (CBSE) – M.P.C. — Jawahar Navodaya Vidyalaya, Krishnapuram (*Graduated 2021*)
91%

Secondary Education (CBSE) — Jawahar Navodaya Vidyalaya, Krishnapuram (*Graduated 2019*)
84%

PROJECTS

Online Food Ordering Application

Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat

- Built a full-stack food ordering system covering browsing, cart, and checkout, with 3 core modules (menu, cart, order management) backed by a MySQL database.
- Implemented user authentication, order handling, and business logic using Java, JSP, JDBC, and Servlets.
- Designed a responsive UI in HTML, CSS, and JavaScript for a smoother ordering experience across devices.
- Applied MVC architecture, the DAO pattern, and session management for secure, maintainable code.

Generative AI Voice Chatbot

HTML, CSS, JavaScript, OpenAI API, PlayHT, Hugging Face, Gradio

- Built a web-based AI voice chatbot that generates intelligent responses to user text input using the OpenAI API.
- Integrated the PlayHT API to convert generated text responses into natural-sounding speech for real-time voice interaction.
- Designed a responsive, user-friendly interface using HTML, CSS, and JavaScript.
- Deployed the application on Hugging Face Spaces using Gradio, enabling public, real-time chatbot access.

TRAINING & CERTIFICATIONS

Java Full-Stack Web Development Certification — TAP Academy

June 2025 – Dec 2025

- Completed a 6-month, project-based training program covering Java, Hibernate, Spring Boot, SQL, HTML, CSS, and JDBC.
- Built full-stack web applications with database connectivity, REST APIs, and CRUD operations as part of the program's capstone projects.
- Covered Spring in depth: Spring Core (IoC and Dependency Injection), annotation-based Java class configuration, Spring ORM, Spring MVC (including request parameter handling and CRUD operations), and end-to-end Spring Boot application development.

SPORTS & ACTIVITIES

- NCC 'C', 'B', and 'A' Certificate Holder.
- National-level Kabaddi player.
